Overview

A project to hold 100 public meetings to honor 100 years of LWV efforts for an educated electorate with emphasis on continuing League's historic support for Clean Water. We begin 2016 with recruiting Lake Michigan and other basin Leagues to host local watershed meetings culminating with a presentation to the LWVUS Convention in Chicago, IL in 2018.

Goals

- 1-Target League public outreach efforts toward watershed information,
- 2-Tailor each meeting to the community watershed issues and interest,
- 3- Work with partners to provide meeting content, materials, speakers,
4. Provide on-going involvement by leaving materials/lists for reading and web sites to visit as well as handouts and an establishing a Library "file".

Requirements

The Local League sets a meeting date, names a chair, works with LWVLMR or LWVIL to choose focus and partners and speakers and agrees to fill out a report form to be used for documentation for LWVUS and possible grant funding, The Local League will also do its own local announcement and media work.

Evaluation

Number of meetings, participants, partners, new members, media articles

Report on progress in newsletters, annual meetings, etc.

Materials

1. Article for LWV newsletters
